

Tired of not reaping what you sow?

Get to the root of the
problem by understanding
how the soil or media used
affects plant growth!

Having difficulty cultivating your own urban garden?
Here are 3 soil management tips which could help you out –

Use suitable types
of soil and media - different
plants may have specific
nutrient requirements

Experimentation is key
to determining the appropriate
additives or media composition
to optimize plant growth

Establish routines
and protocols to track and
monitor soil or media
properties
