

Want to know if It's Thyme 100% of the Time?

Join our 1-day course and learn to identify, name, and classify plants with confidence by their structures, growth habits, and botanical traits.

This brochure uses AI-Generated Images

COURSE HIGHLIGHTS

- ✓ Identify and label the main anatomical parts of a plant and state the primary function of each part
- ✓ List and recognise commonly used market names of plants used in horticultural practice
- ✓ Match common plant names with their correct botanical (scientific) names for selected horticultural species
- ✓ Classify plants according to growth habits and structural characteristics based on observable visual features
- ✓ Identify specialised plant forms and explain how environmental conditions influence their development
